

Better meetings start with Launcher

Call launching

Launch any video conference call from the Launcher home screen, either via the calendar or through an app shortcut.

Room calendar

Plan your meetings with ease with clear visibility of the meeting room's availability, whether you're in the room or booking a meeting space.

Shortcuts

Everything you need will be at your fingertips, with your choice of productivity apps and web links ready for one-touch launching.

Cleanup

Built-in security options remove any of your data, close applications, and clean up the device for the next meeting.
